Summary

Front-End Developer with over 2 years of experience in building scalable, responsive web applications using Next.js, React, and Tailwind CSS. Passionate about crafting high-performance UIs, reusable components, and clean, maintainable code. Adept at collaborating in remote teams, integrating modern UI/UX practices, and using tools like Git for efficient version control.

Work Experience

Airpacki

Remote

NEXT.JS DEVELOPER

Sep 2025

- Built and deployed scalable web applications using Next.js, leveraging server-side rendering and static site generation for optimal performance and SEO.
- Integrated React Query to manage asynchronous data fetching and caching with RESTful APIs.
- Designed reusable UI components with Tailwind CSS, utilizing Zustand for lightweight and efficient state management.

Cygen

Remote

NEXT.JS DEVELOPER

Nov 2024 – May 2025

- Built and deployed scalable web applications using Next.js with a focus on performance and SEO optimization.
- Integrated RESTful APIs
- Designed reusable UI components with Tailwind CSS
- Led front-end development as the sole front-end engineer, actively participating in agile ceremonies including daily stand-ups, code reviews, and sprint planning within a remote cross-functional team.

EmbodyXr

Remote

FRONT-END DEVELOPER

Mar 2023 – Jul 2024

- Developed responsive and interactive UI components using React, TypeScript, and Tailwind CSS.
- Collaborated with designers and back-end developers to optimize UI/UX and page load times.
- Used Git and GitHub for version control, branching strategies, and collaborative pull requests.

Skills
